The Deering!

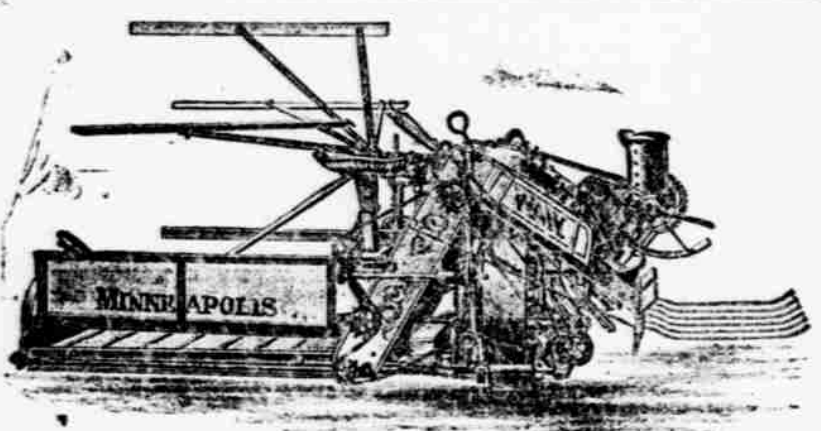

THE BEST OF ALL!

We notice a statement published in the Sentinel, signed by Lin M. Derr and others, saying they have had the Minneapolis binder for years, and it gives them the very best satisfaction, and has given them NO TROUBLE. In answer to this we say that Lin Derr's Minneapolis binder stood in Mr. Morgan's field all one harvest and they could not make it work, and they came in and bought a Deering binder of me to cut Mr. Morgan's fall wheat and other grain for other farmers. If the Minneapolis gave them NO TROUBLE why did they not cut Mr. Morgan's fall wheat? Why did they come and buy a Deering to cut it? They say that the Deering cuts all right, but runs heavy. Why do they work the horses on the Minneapolis, and most all the farmers around them only work three horses on the Deering? We sold fifteen Deering binders last season, and have sold in all about sixty or seventy Deering binders here, and to most all of the best farmers in Holt county. Have all reason to recommend them for the DEERING IS ALL RIGHT.

We have the Thomas Sulky Hay Rakes, Binding Twine, Screen Doors, Wire Cloth, Gasoline Stoves, Etc. We want your trade. Will sell you goods as low as anybody, and are not making or signing any wild statements about our binders.

T. L. PRICE, Hardware, Oregon, Mo.

Steel Harvester and Binder

OREGON, MO., JUNE 6, 1892. I bought a Minneapolis 6 foot binder of the Minneapolis agent in Wellington, Kan., in 1885, and cut, on an average, 200 acres each year, and in 5 years' time I paid out 10 cents for repairs. I cut 16 acres of rye one day from 9 a. m. to 5 p. m., with three horses. It cut around the best harvester and binder made. In 5 years, Kan., in a field test of 40 acres with Alex. Barnes and Warren Barker, who owned McCormick machines, I cut 20 acres while they scarcely got their machines started, and cut what at another time which the McCormick could not and did not cut. I think it the very best machine made.

Very Respectfully, JOHN J. GARRITT.

Read the following: We have used the Minneapolis binder for 5 years. It gives us the very best of satisfaction, it runs light, cuts a full swath, binds tight, it is simple and durable and gave us no trouble. We consider it the best harvester and binder made. We have seen and used other machines but like the Minneapolis better than any other, and if we had to buy a dozen it would be the Minneapolis every time. HENRIK BROS., L. M. DEER, W. A. S. DEER, JOHN J. GARRITT.

Computers selling other machines besides the Minneapolis have heretofore stated that no repairs could be procured for this machine. Parties have always been enabled to obtain repairs from the factory, and the reason they could not procure them in the west was that they were withdrawn from Kansas City in 1888. But as the great Walter A. Wood Machine Co. have bought this plant, are moving two and one-half million dollars in it and have a large Western House at Kansas City, all those wishing repairs can readily get them here, as I will keep a full supply for the Minneapolis binder, which is said (and proved) to be the best binder made. All unite in this opinion.

The Milwaukee Binders and Mowers are recognized by the leading farmers as the very best machines now on the market. Gifford & Co., at Curzon, are the agents.

You can ask Fred Myrt about the Milwaukee Binders and Mowers. Hear what he has to say then go to the agents and buy. Gifford & Co., agents, Curzon.

Are you the head of a family, and necessarily interested in DRY GOODS, CLOTHING, BOOTS, SHOES and NOTIONS? If so let us say to you that we have been, still are, and will continue to be the MECCA for low prices and good goods. We are known by many names, some call us the "Racket," some the "Cheap Store," and others the "St. Joe Store." Well, it don't matter to us by what name we are known, but from the amount of advertising we have done, and the general talk throughout the country, it does seem that if you read at all it means GLASCOCK'S BIG STORE AT OREGON; yes, big enough for two stores, and as an old lady said yesterday we have enough goods to supply all Northwest Missouri, but you know we do business on the nimble six-pence plan. We mark our goods so low that to see them is to invest.

We are having a big run on all lines of summer goods and we ought to, for our low prices make one feel like they were finding the goods. Our competitors may call this wind, gas or brag, but don't be fooled, come and see what we have to offer; and by the way, we will have in some New Summer Goods and Parasols tomorrow, and it'll be worth while to know our prices before you buy. Bring the babies along and spend a day, our junior clerk loves to care for them while you are shopping. You might also bring grandma along, as we have some choice lines of Black Lawns, Satteens, Bedfordts and Organdies. Lastly, come one and all, buy and be glad, dress well and marry young, and begin to save money by buying of

A light rain fell here on Monday evening, and accompanied by hail. At Judge Hunt's hall stones were very large and round. Chickens were killed and corn stalks driven into the earth. Further south the hail was heavier. A dish pan sitting out of doors was turned inside out by the beating hail, and a skillet was disabled by having one of its legs knocked off. This did not happen at Hunt's but like the misluckiness of the "Olaks" further along.
